#### South Cambs DC Finance Settlement and Consultation

The revised 5-year Medium Term Financial Strategy for SCDC shows that if the provision for the Fair Funding Review is stripped out then SCDC will achieve a balanced budget for the next five years from 2024/25. However, the Council is having to make provision for the Fair Funding Review which artificially locks away a sizable proportion of income in future years, because the Government has failed to deliver a medium-term financial strategy for Local Government against which we can make accurate provision. So, SCDC must prudently assume a worse case scenario – as with other Councils - meaning there are likely to be millions of pounds tied up in Council reserves across the country that could be spent on services because of this failure by Government to plan ahead. The SCDC 2024/25 budget will include more resource to deal with homelessness, help with the cost-of-living crisis and fly-tipping, as well as increasing the Renewables Fund for Green projects. All this at a time when most other councils are in dire financial trouble. South Cambs is in a strong financial position with little risk in future years as reported independently by the Peer Review.

#### South Cambs 4 Day Working Week

The 4 day working week trial has now been in place for 12 months for desk-based staff. Savings made by not overspending the budget on agency staff have been enormous - money which is now in reserves to be spent on services for communities across the District. The impact on staff wellbeing and attitudes has also been amazing – going the extra mile is now commonplace across the Council, with obvious benefits to our residents and businesses.

#### **Online Checker for Home Improvement Projects**

The Greater Cambridge Shared Planning Service has launched a user-friendly online checker to help home owners find out if planning permission is needed for home improvement projects such as dormer windows, fence installations, outbuildings, front porches, flue installations and more! The checker is at https://greatercambridgeplanning.org/planning-applications/check-if-i-need-planningpermission/. For those thinking about installing solar panels, check out the dedicated webpage for planning permission requirements at

#### **Cambridge 2040 and Development Corporation proposals**

In his speech (full transcript at https://www.gov.uk/government/speeches/falling-back-in-love-withthe-future), Michael Gove talked about 150,000 plus houses is what he wants to build in the Cambridge area between now and 2040. Peter Freeman (Homes England Chief Exec) is his choice to head the Cambridge Delivery (super)Group. We still don't know who the members of this supergroup are or will be. His vision of "a new urban quarter" is to be delivered by a Development Corporation with a broadly based Board to steer its efforts". Make of that what you will. He briefly mentioned an approach towards water and steps to help manage demand for water in new developments. But nothing about the current stalemate with Environment Agency for water to deliver sites in the current adopted local plan. And Michael Gove is still not talking to the Local Government leaders in the area – just announcing what he wants to do. So much for localism.

The leaders of Cambridge City Council, Cllr Mike Davey, South Cambridgeshire District Council, Cllr Bridget Smith, Cambridgeshire County Council, Cllr Lucy Nethsingha, and the Combined Authority Mayor of Cambridgeshire and Peterborough, Dr Nik Johnson, said: "Despite working hard to engage constructively with Government officials since the Secretary of State's initial Cambridge 2040 announcement in the summer, it's deeply disappointing that once again Government plans for Cambridge seem to be being negotiated through the press.

"We note in the latest announcement that the number of new homes put forward by Rt Hon Michael Gove MP has come down from 250,000 to 150,000, but this is still substantially more than the over 50,000 homes we have identified as needed in the emerging Greater Cambridge Local Plan (to 2040) – a number which will already be incredibly challenging to bring forward. We are ambitious for high quality sustainable, green growth but can't stress enough how vital it is that Government supports us to tackle the issues that will otherwise act as roadblocks to sustainable growth.

"We have written to the Secretary of State a number of times over the past month to stress the importance of committing to sustainable growth, and to reiterate the support that is needed to enable us to plan for the homes set out in the emerging Greater Cambridge Local Plan.

"This includes prioritising sustainable public transport, community infrastructure such as schools and GPs, and water shortages in this region, which are putting our chalk streams under extreme pressure – an issue which the Greater Cambridge Planning Service warned in January 2023 could delay existing plans for housebuilding if not addressed by Government. We are still waiting for responses to these questions which would detail how Government proposes to support us in delivering a proposed 50,000 or so homes responsibly, let alone 150,000.

"Clarity is also needed as to who is involved in the 'Cambridge Delivery Group', what it will do, and how it will be governed. Devolution works best when local politicians are empowered to lead and deliver sustainable development and we will continue to work hard to represent our residents and ensure that Cambridge and its surrounding villages grow in a sustainable and carefully planned way."

### **Fake News on Council Finance**

An MP made a statement in the House of Commons last month naming councils which were allegedly bankrupt and had issued S114 notices, mentioning South Cambs as one of them. The Council wrote to him immediately asking for the record to be put straight and have had an apology from him.

A 'newspaper' made a claim that South Cambs had a debt that is 21.8 times its spending

power. Again fake news and sloppy researching. The figure they'd latched onto is the £205 million that the District had to pay to the Government in March 2012 to enable the Council keep its social housing stock and all the rent from it!. Furthermore this debt is within the Housing Revenue Account (HRA) which is ringfenced solely for Housing and is completely separate to the General Fund Account used for running the council. The HRA debt is serviced exclusively out of the rental income from the housing portfolio. Read it for yourself at

# Are you claiming the rights benefits?

South Cambridgeshire DC is making a big push to raise awareness of benefits entitlement. It's estimated that around 25% of benefits go unclaimed. Here's an easy-to-use on-line Benefits Calculator: <a href="https://entitledto.co.uk">https://entitledto.co.uk</a>

# **County Council Budget Consultation**

There's not long left for you to give your views on the forthcoming CCC budget – the consultation closes on January 16<sup>th</sup>. Included in the proposals are Included in the proposals for the coming year are for the council to invest £57 million to sustain children's and adult social care services; further the Council's commitment to the Real Living Wage, which has increased to £12ph outside London, to take account of the Government uplift of the legally enforceable Living Wage, being paid by adult care providers. CCC intends to prioritise £3m to continue to provide holiday food vouchers for all children eligible for free school meals, despite the government support being likely to end in the next financial year.

We will invest £2.2m to deliver other anti-poverty initiatives – such as support to make sure that vulnerable people are claiming all the welfare benefits that they are entitled to; £1.3m into delivering more accessible libraries to support vulnerable communities and prioritise investment of £23m into making highways, footpaths, and cycleways safer – on top of a recently announced government allocation of £2.3m. This will be to deliver improvements which both repair and prevent potholes, deliver improved drainage schemes, and reinstate cycleway maintenance and weed clearance. Lastly there will be additional funding into schemes for people experiencing mental health issues to prevent them reaching crisis, particularly focussing on younger people.

The proposals include an increase of council tax by 4.99%, the maximum permitted by Government before a public referendum is needed – with a total of 2% of this increase dedicated to adult social care services across the county, and £17.6m of identified additional savings will need to be made to balance the books.

# £368,000 to help council respond to major projects

A successful bid to Government means an additional £368,000 to help the council respond to proposals for major infrastructure in Cambridgeshire. The money will help support the council with the administration of Development Consent Orders (DCO) for schemes like East West Rail, the A428 Black Cat to Caxton Gibbet upgrade, and the Fenland Reservoir, as well as other Nationally Significant Infrastructure Projects (NSIPs). £268,000 will bring in extra technical and specialist resource, and a further £100,000 will enable work across all these types of projects.

### Change to access at Royston and Thriplow recycling centres

Cambridgeshire residents now need to apply for a digital permit to use Royston Household Recycling Centre in Hertfordshire. The change comes following the announcement last year that Hertfordshire County Council would be adopting a policy restricting access to non-residents at Hertfordshire's network of sixteen recycling centres. However, the county council has reached an agreement with Hertfordshire County Council that enables continued cross-border access to Royston Household Recycling Centre for Cambridgeshire residents living close to the county boundary, whilst allowing Hertfordshire residents access to Thriplow Household Recycling Centre in South Cambridgeshire. Resident-only policies are becoming increasingly common across the region and indeed the country, with many neighbouring counties having had this policy in place for some time.

#### Parents encouraged to apply for support with childcare costs

The Department for Education is reminding eligible working parents of two-year-olds that they will be able to register to access 15 hours free childcare per week from April 2024. The recommended time to register is between mid-January and the end of February. More information on the childcare support available to parents can be found on the Childcare Choices website, where parents can explore the early education entitlements and other government help with childcare costs.

### **Take 5 Project**

In the light of concerns around Gamlingay Village Primary Take 5 might be a project worth looking into. A walking zone around each school is researched by pupils, and adult volunteers and publicised to parents, carers, and families by a Take 5 map, banners outside the school, and special events. In most cases the Take 5 scheme is also marked out by easily identifiable signs on lamp columns. Families who live in, or near the zone are encouraged to walk, scoot or cycle to and from school every day, while those with longer journeys who need to drive are asked to park safely outside the zone and to walk the last five minutes of their journey.

### **Flooding**

The recent extraordinary rainfall levels have triggered road flooding widely including at Arrington and the Cinques in Gamlingay. It would be very helpful if you know of a blocked field ditch or drain if you could plot it on the CCC website at <a href="https://highwaysreporting.cambridgeshire.gov.uk/">https://highwaysreporting.cambridgeshire.gov.uk/</a> - and likewise with potholes. Thank you!

#### **Buses**

The Combined Authority has reviewed a number of bus routes including the 75 (Cambridge – Orwell – Wrestlingworth) and the 17 (Royston – Bassingbourn – Guilden Morden) and has decided to retain them despite the subsidy but will review timings to make them work better with other linking services. The Combined Authority is undertaking a public consultation – but hurry as this closes on Jan 15<sup>th</sup>. The ambitions are to add more buses to the network; provide bus users with better information; more reliability across the network; provide nicer, better quality buses and better value for money for users which is why the Mayor proposes to invest up to £2.3 million into improving service so we can keep people connected and make sure the bus routes that are important to the community can keep running. We are also continuing to support the national scheme to cap fares at £2 until the end of 2024 to help bus users struggling with the cost-of-living crisis. <a href="https://cambridgeshirepeterborough-ca.gov.uk/better-buses/#questionnaire">https://cambridgeshirepeterborough-ca.gov.uk/better-buses/#questionnaire</a>

#### **Road Closures**

Foxton Road Barrington/Barrington Road Foxton will be closed for resurfacing between February 26<sup>th</sup> and 29<sup>th</sup>.

### New Highways maintenance way of working

From April, highways maintenance jobs will be signed off and coordinated by specialist teams rather than Local Highways Officers, though our LHOs will act as intermediaries to keep specialist teams informed of local needs and priorities. Specialist teams will deal with signs, lines, road surface treatment, path treatment and gullies. Teams have formed in anticipation, and we are all getting familiar with new ways of working - we will do our best to help make the transition. Please note that logging jobs on the Highways reporting site is still the right first step. Report a highways fault - Cambridgeshire County Council Any questions please let us know.

#### Regularizing gully clearing:

As previously reported, prior to the 2021 County Council Joint Administration, there was no systematic recording and care of gully maintenance. As part of a massive overhaul of Highways maintenance systems, and within a context of managed decline legacy and a visibly deteriorating network, highways maintenance is transitioning to a more accountable system, though resource remains very stretched and need very high. Indeed the upcoming budget requires significant additional expenditure to simply stand still.

All gullies have, for the first time, been mapped and recorded on a system called KaarbonTech. An initial program has been put in place to ensure all gullies are cleared every two years. Data on the state of each gully is now being recorded with each of those cleans. The next step is to put that together and adopt a smarter gully cleaning regime. Not all gullies need to be emptied every two years, but some will need much more frequent routine work. The aim is to build up the data picture and be smart about where scarce resource is deployed. Parish clerks should now be receiving cyclical gulley clearance notices. Any hot spots should be logged on the Highways reporting site.

#### Electric vehicle charging

An estimated 10,000 public electric vehicle charge point sockets will be needed across Cambridgeshire by 2030, as motorists choose electric vehicles over petrol and diesel cars - set to be banned by government from 2035. Using up to £5M in Local Vehicle Infrastructure (LEVI) funding, the council is working with the Combined Authority on how to meet this need, with fewer than 500 public charge points currently installed. Officers will develop a plan informed by technical mapping and seek public engagement to find suitable charge point locations. They will report back later in 2024.

Your Councillors are here to help you. Please do feel free to contact us with comments, questions, problems or complaints. We hope we can help but if we can't we are likely to know someone who can!

### 20 mph speed limit - the Parish Council needs your view.

The Council has successfully gained approval for 40mph buffer zones on roads approaching our village so now we would like your view on whether Guilden Morden should make an application for 20mph speed restrictions in the village (or part of the village).

Please tick one option below

Yes I am in favour of 20mph speed restriction throughout the whole village

Yes I am in favour of 20mph speed restriction on some roads in the village

No I would not like to see 20mph speed restriction in the village

[Need to add details of how respondents log their view eg online via website or where to leave a paper copy of the above]
